Re: Agriculture Exempt Burn Permit

On January 23, 2012 Court order (2012-063-01-23) was signed approving the amendment of FY2012 fee Schedule to include an agriculture exempt burn permit. After continued discussion there was some clarity needed on what qualified as agriculture exempt status. It was determined that the qualifications for an agriculture exempt status was one in which had agriculture exempt status through the Collin Appraisal District. In determining this exempt status and a new permit and application had to be written. This item on the agenda defines the permit and application for the approved exempt status.
